

YES IT'S ROCKET SCIENCE.

MAGNA TC II

TENSION CLIC AND TENSION SOUND

The success of the Tension Clic and Tension Sound sponges is enormous with our Boost rubbers. We have developed a new version of these sponges and combined them with our very popular Magna top sheet. The new version of the Tension Clic and Tension Sound sponges is developed specifically to fit the unique characteristics of the Magna top sheet and will transform your game, bringing out the very best in each individual player.

MAGNA TC II

Magna TC II opens totally new perspectives: it is more dynamic, more sensitive, generates noticeably greater spin – and it is very fast. You get a crisp, clear sound from the Magna TC II when striking the ball. With Magna TC II you can easily attack short balls over the table and you will feel the grip and speed when touching the ball. In today's modern game, topspin and topspin rallies are more and more important. With the Magna TC II you can attack your opponent's shots with confidence and take control of rallies. Magna TC II is recommended for highly skilled attackers with excellent technique. Magna TC II is made in Japan.

MAGNA TS II

Magna TS II is the outstanding choice for offensive players of almost all playing levels who like soft sponges with an amazing sound when striking the ball. Magna TS II gives you excellent control of all your strokes, thanks to the unique Magna surface, while the specially developed TS II sponge gives you the speed you are searching for when attacking the ball. Magna TS II is made in Japan.
